FOR IMMEDIATE RELEASE

Goodyear to Temporarily Suspend Americas Manufacturing, Will Continue Serving Customers

AKRON, Ohio, March 18, 2020 – In response to the sudden decline in market demand resulting from the rapid spread of the COVID-19 pandemic, The Goodyear Tire & Rubber Company plans to suspend Americas manufacturing through at least April 3 or until further notice.

A phased shut down will begin across the company's tire, retread and chemical plants in Brazil, Canada, Chile, Colombia, Mexico and the United States over the coming days. Its facility in Peru was closed earlier this week.

The company will closely monitor the local conditions surrounding its warehouse and distribution operations, as well as inventory and supply levels to continue delivery of Goodyear products.

To further protect the health and wellbeing of its associates, customers and communities, which remain Goodyear's top priority, the company is following guidance from the Centers for Disease Control and Prevention and has introduced a number of preventative measures at its facilities, including limiting visitor access and business travel, implementing remote working and social distancing practices and increasing frequency of disinfection.
