GOODYEAR ANNOUNCES THIRD QUARTER 2026 RESULTS

Third Quarter Results Reflect Sequential Earnings Improvement Amid Continued Market Challenges; Goodyear Advancing Next Phase of Transformation

Third Quarter 2026 Overview

Net sales of $4.5 billion, decreasing 2.3% year over year (YoY); up 1.6% organically YoY

Tire unit volume of 38.6 million units, decreasing 3.3% YoY, driven by replacement market weakness partially offset by higher OE volumes reflecting market share gains

Goodyear net loss of $238 million, or a loss of $31 million as adjusted

Segment operating income of $174 million; organic results improved YoY in Asia Pacific and EMEA offset by factory utilization and cost absorption pressures in the Americas

Continued progress shifting toward higher-value consumer tires; 18" and above products represent 44% of sales volumes, up from 39% a year ago

Dedicated transformation office established to accelerate evaluation and execution of opportunities to improve structural returns and cash generation

AKRON, Ohio, Nov. 4, 2026 – The Goodyear Tire & Rubber Company (NASDAQ:GT) reported third quarter 2026 results today and will host an investor call tomorrow morning, Thursday, Nov. 5, at 8:30 a.m. Eastern time led by Mark Stewart, Goodyear's chief executive officer and president, and Scott Deakin, the company's interim executive vice president and chief financial officer.

"While our third quarter results reflected meaningful sequential earnings improvement, our financial performance remains below our expectations. We've made real progress in strengthening our product portfolio and optimizing our manufacturing footprint. But as challenging industry conditions persist, incremental improvements alone won't get us to where we need to be," said Stewart. "To get there, we've established a dedicated transformation office to pursue broader operational and strategic opportunities and to drive structural changes that will allow the business to generate more consistent free cash flow."

Financial Results

Goodyear's third quarter 2026 net sales were $4.5 billion, with tire unit volumes totaling 38.6 million. After adjusting for the impact of the sales of its Chemical business and the Dunlop brand of $177 million, organic

net sales increased 1.6% as a result of price/mix benefits, partially offset by lower volume.

Third quarter 2026 Goodyear net loss was $238 million, or $0.82 per share, compared to Goodyear net loss one year ago of $2.2 billion, or $7.62 per share. Third quarter 2026 included several significant items, including, on a pre-tax basis, rationalization charges of $148 million. This significant item, and others, are excluded from adjusted earnings.

Third quarter 2026 adjusted net loss was $31 million, compared to adjusted net income of $82 million in the prior year's third quarter. Adjusted loss per share was $0.11, compared to adjusted earnings per share of $0.28 in the prior year's third quarter. Per share amounts are diluted.

Segment Results

The company reported segment operating income of $174 million in the third quarter of 2026, compared to $287 million from one year ago.

After adjusting for the sales of its Chemical business and the Dunlop brand, segment operating income decreased $57 million. The decrease in segment operating income reflects the impact of lower volume of $77 million, inflation of $69 million, and higher tariffs and other costs of $48 million, partially offset by $90 million of benefits from Goodyear Forward and favorable price/mix versus raw material costs of $76 million.

Additional earnings materials can be found on Goodyear's investor relations website at http://investor.goodyear.com.

Reconciliation of Non-GAAP Financial Measures

See "Non-GAAP Financial Measures" and "Financial Tables" for further explanation and reconciliation tables for historical Total Segment Operating Income and Margin; Adjusted Net Income (Loss); and Adjusted Diluted Earnings per Share, reflecting the impact of certain significant items on the 2026 and 2025 periods. Organic earnings measures exclude the impact of divestitures; see "Non-GAAP Financial Measures" for additional details.

Business Segment Results

AMERICAS

(In millions)	Third Quarter 2026	Third Quarter 2025	Nine Months 2026	Nine Months 2025
Tire Units	19.6	19.6	52.3	57.1
Net Sales	$2,675	$2,737	$7,120	$7,901
Segment Operating Income	$96	$206	$123	$502
Segment Operating Margin	3.6%	7.5%	1.7%	6.4%

Americas' third quarter 2026 net sales of $2.7 billion were 2.3% lower than the previous year, driven by the sale of the Chemical business. Tire unit volume was flat. Replacement tire unit volume decreased 2.2%. Original Equipment (OE) tire unit volume increased 8.7%, reflecting market share gains.

Segment operating income was $96 million, decreasing from $206 million last year. Excluding the impact of the sale of the Chemical business, Americas' segment operating income decreased $76 million driven by the impact of factory utilization, inflation and other costs, partially offset by Goodyear Forward benefits.

EMEA

(In millions)	Third Quarter 2026	Third Quarter 2025	Nine Months 2026	Nine Months 2025
Tire Units	11.1	12.0	33.5	35.6
Net Sales	$1,355	$1,407	$4,090	$4,028
Segment Operating Income (Loss)	$12	$30	$(4)	$—
Segment Operating Margin	0.9%	2.1%	(0.1%)	—

EMEA's third quarter 2026 net sales of $1.4 billion decreased 3.7% from third quarter 2025, driven by the sale of the Dunlop brand and lower tire volume. Tire unit volume decreased 6.7%. Replacement unit volume decreased 11.3%, driven by consumer market softness and planned SKU rationalization. OE tire unit volume increased 5.5%, reflecting the 11th consecutive quarter of consumer market share gains.

Third quarter segment operating income was $12 million, decreasing $18 million from the prior year. Excluding the impact of the sale of the Dunlop brand, EMEA's segment operating income increased $5 million, driven by benefits from price/mix versus raw materials and Goodyear Forward, partly offset by inflation, other manufacturing expenses and the impact of lower volume.

ASIA PACIFIC

(In millions)	Third Quarter 2026	Third Quarter 2025	Nine Months 2026	Nine Months 2025
Tire Units	7.9	8.4	23.3	23.7
Net Sales	$510	$501	$1,461	$1,434
Segment Operating Income	$66	$51	$186	$139
Segment Operating Margin	12.9%	10.2%	12.7%	9.7%

Asia Pacific's third quarter 2026 net sales of $510 million increased 1.8% from the third quarter 2025 as a result of price/mix benefits, partially offset by lower tire volume. Tire unit volume decreased 6.0%. Replacement volume decreased 8.2% driven by planned SKU rationalization. OE volume decreased 3.9% driven primarily by China.

Third quarter 2026 segment operating income of $66 million was $15 million higher than the prior year driven by benefits from price/mix versus raw materials and Goodyear Forward, partially offset by the impact of lower volume.

Conference Call

The company will host an investor call on Thursday, Nov. 5, 2026, at 8:30 a.m. Eastern time. Please visit Goodyear's investor relations website: http://investor.goodyear.com , for additional earnings materials.

The investor call can be accessed on the website or via telephone by calling either (833) 419-0865 or (785) 838-9333 before 8:25 a.m. Eastern time and providing the conference ID "Goodyear." A replay will be available by calling (800) 723-0607 or (402) 220-2658. The replay will also be available on Goodyear's investor relations website.

About Goodyear

Goodyear is one of the world's largest tire companies. It employs about 60,000 people and manufactures its products in 46 facilities in 19 countries around the world. Its two Innovation Centers in Akron, Ohio, and Colmar-Berg, Luxembourg, strive to develop state-of-the-art products and services that set the technology and performance standard for the industry. For more information about Goodyear and its products, go to www.goodyear.com/corporate.

Forward-Looking Statements

Certain information contained in this news release constitutes forward-looking statements for purposes of the safe harbor provisions of The Private Securities Litigation Reform Act of 1995. There are a variety of factors, many of which are beyond our control, that affect our operations, performance, business strategy and results and could cause our actual results and experience to differ materially from the assumptions, expectations and objectives expressed in any forward-looking statements. These factors include, but are not limited to: our ability to implement successfully our strategic initiatives; actions and initiatives taken by both current and potential competitors; increases in the prices paid for raw materials and energy; inflationary cost pressures; delays or disruptions in our supply chain or the provision of services to us; a prolonged economic downturn or period of economic uncertainty; deteriorating economic conditions or an inability to access capital markets; a labor strike, work stoppage, labor shortage or other similar event; financial difficulties, work stoppages, labor shortages or supply disruptions at our suppliers or customers; the adequacy of our capital expenditures; changes in tariffs, trade agreements or trade restrictions; foreign currency translation and transaction risks; our failure to comply with a material covenant in our debt obligations; potential adverse consequences of litigation involving the company; as well as the effects of more general factors such as changes in general market, economic or political conditions or in legislation, regulation or public policy. Additional factors are discussed in our filings with the Securities and Exchange Commission, including our annual report on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K. In addition, any forward-looking statements represent our estimates only as of today and should not be relied upon as representing our estimates as of any subsequent date. While we may elect to update forward-looking statements at some point in the future, we specifically disclaim any obligation to do so, even if our estimates change.

Non-GAAP Financial Measures (unaudited)

This news release presents non-GAAP financial measures, including Total Segment Operating Income and Margin, Adjusted Net Income (Loss), Adjusted Diluted Earnings Per Share (EPS), and organic earnings measures, which are important financial measures for the company but are not financial measures defined by U.S. GAAP, and should not be construed as alternatives to corresponding financial measures presented in accordance with U.S. GAAP.

Total Segment Operating Income is the sum of the individual strategic business units' (SBUs') Segment Operating Income as determined in accordance with U.S. GAAP. Total Segment Operating Margin is Total Segment Operating Income divided by Net Sales as determined in accordance with U.S. GAAP. Management believes that Total Segment Operating Income and Margin are useful because they represent the aggregate value of income created by the company's SBUs and exclude items not directly related to the SBUs for performance evaluation purposes. The most directly comparable U.S. GAAP financial measures to Total Segment Operating Income and Margin are Goodyear Net Income (Loss) and Return on Net Sales (which is calculated by dividing Goodyear Net Income (Loss) by Net Sales).

Adjusted Net Income (Loss) is Goodyear Net Income (Loss) as determined in accordance with U.S. GAAP adjusted for certain significant items. Adjusted Diluted Earnings Per Share (EPS) is the company's Adjusted Net Income (Loss) divided by Weighted Average Shares Outstanding-Diluted as determined in accordance with U.S. GAAP. Management believes that Adjusted Net Income (Loss) and Adjusted Diluted Earnings Per Share (EPS) are useful because they represent how management reviews the operating results of the company excluding the impacts of rationalizations, asset write-offs, accelerated depreciation, discrete tax items, impairments, asset sales and certain other significant items.

Organic earnings measures, including organic Net Sales growth, are non-GAAP financial measures that exclude the direct impacts of the divestitures of the Dunlop brand and Chemical business from year-over-year comparisons. We believe these measures provide investors with a supplemental understanding of underlying earnings trends by providing comparisons on a constant basis. We completed the sale of the Dunlop brand and our Chemical business in May 2025 and October 2025, respectively.

It should be noted that other companies may calculate similarly-titled non-GAAP financial measures differently and, as a result, the measures presented herein may not be comparable to such similarly-titled measures reported by other companies. See the following tables for reconciliations of historical Total Segment Operating Income and Margin, Adjusted Net Income (Loss) and Adjusted Diluted Earnings Per Share

to the most directly comparable U.S. GAAP financial measures.
